## Work Experience

- **Developer** May 2019 - Aug 2019  
Momentum Dashboard
  - Developed high-volume, user-facing web app and Chrome Extension, Momentum Dashboard and Momentum Dashboard Team, utilizing VueJS and BackboneJS
  - Built modular, reusable Vue and Backbone components with industry best practices for scalability and maintainability
  - Implemented automated testing for application functionality and behaviour with Cypress
  - Created API endpoints and DB model to save user feedback submission
  - Collaborated in an Agile team environment with daily Scrum meetings
- **Web Developer** Jan 2017 - Aug 2017  
ACDSystems
  - Developed web pages for ACDSystems' products, sale campaigns, and customer-facing Purchase History page utilizing HTML, CSS, jQuery, and JavaScript
  - Coded in PHP frameworks Symfony, Roots Sage for Wordpress blog development, and Bootstrap for responsive user-experience
  - Parsed JSON and XML files from internal API for web page display
  - Practiced prioritizing responsibilities for multiple projects and collaboration in a team Agile environment
- **Junior Developer** May 2016 - Aug 2016  
PurposeSocial
  - Designed and developed websites, medias, and logos for company and clients' businesses
  - Implemented websites on Wordpress and WP themes
  - Cooperated and effectively communicated with peers, mentors, and clients to create web pages and design graphics

## Projects

- **My Duck Diet** Mar 2019  
Personal Project
  - A real-time VueJS web application for logging ducks' diet
  - Resources utilized: Firebase, BootstrapVue, Vue Router, Vue Datetime
  - 🔗 <https://myduckdiet.firebaseio.com/>
- **Online Privilege Walk** Jan 2018  
NWHacks Hackathon
  - A Firebase ReactJS web application simulating a physical "privilege walk." Designed to get participants to reflect the ways in which society presents privileges and on different areas of their lives
  - Designed user interface, experience, branding, and graphics
  - 🔗 <https://privileged.herokuapp.com/>

## Education

- **BSc Computer Science** Sept 2014 - Dec 2019  
University of Victoria
  - Software Engineering Option
  - Co-op

## Involvements

- **UVic WebDev Club** Sept 2017 - Dec 2019  
President
  - Organized club meetings and workshops
